INTRODUCTION

The U.S. Environmental Protection Agency (EPA) is comprised of a Headquarters Office in Washington, D.C., 10 Regional offices, and 13 specialized, scientific laboratories located throughout the country. The EPA libraries are located in Headquarters and all Regional offices and laboratories to support this organizational structure.

The 28 EPA libraries contain a combined collection of over 117,200 books, 5,600 journals, 465,300 hard copy reports, 2,800,000 documents on microfilm and microfiche, 9,000 journal article reprints and 2,000 maps. Most of the EPA library network's hold-ings are cataloged on OCLC, a national cataloging system.

This Guide provides background information on the collections of each of the 28 libraries and the wide range of general and specialized information services provided to EPA staff and the general public. The services provided include: acquisition of books, journals, reports; cataloging; circulation; access to the collections of other Federal, academic, public and special libraries through interlibrary loan; reference assistance including preparation of special subject bibliographies, and computer assisted literature search services.

Several of the libraries have more complete selections of information or special collections on specific subjects. In FY 1986, the Headquarters library developed a special collection on Hazardous Waste for the entire network. The complete collection currently contains over 600 books, journals and reports, and is growing rapidly. It is housed in 17 selected EPA libraries. (See "Special Collections" Appendix for specific locations of the Hazardous Waste and other special collections.)

Three-character codes have been assigned to each of the libraries according to geographical location, based on the EPA regional structure, e.g., EHA. The "A" library (last character of code) is always the regional library; the "B," "C," etc., are assigned to other libraries located in the same geographic region. (Prior to 1979, the libraries were assigned numeric codes, e.g, 01A.)

The eight appendices include a: Legend of EPA Library Codes; guide to Special Collections; Subject Index to EPA Libraries' General Collections; Description of Databases Used by the EPA Libraries; Number of Items Held by EPA Libraries; Cities in which EPA Libraries are located; Location of EPA Libraries within the 50 States; and Names of EPA Library Staff Members.

This Guide was prepared by the Information Management and Services Division. Any questions can be directed to Mary Patterson, Library Coordinator, U.S. Environmental Protection Agency, Headquarters Library, 401 M Street, S.W., Room 2904, PM-211D, Washington, D.C., 20460. Phone number: (202) 382-5929.

Acquisitions Librarian	Thurman Pugh
Cataloger Librarian	Mary Cardenas
Interlibrary Loan Librarian	Cheryl Ferguson

Hours: 8:00 a.m. to 5:30 p.m.
Monday - Friday

The EPA Headquarters Library is operated by the Information Management and Services Division under contract to Ebon Research Systems. It provides information services covering a wide range of environmental and management subjects of interest to EPA staff and the general public. Subject areas include:

- o Air pollution
- o Chemistry
- o Hazardous wastes
- o Noise abatement
- o Pesticides
- o Radiation
- o Resource recovery
- o Solid waste management
- o Toxicology
- o Water pollution
- o Water quality
- o Water supply

There is also a collection of materials on social, economic, legislative, legal, administrative and management projects related to all aspects of environmental policy.

The Headquarters Library collection is comprised of: 12,500 books; 700 current subscriptions to journals, abstracts and indexes, newsletters and newspapers; 22,000 hard copy documents and technical reports generated by government sources or the private sector; 310,000 documents on microfiche, including technical reports produced by EPA and its predecessor agencies; and a microfilm collection that includes back files of newspapers, abstracts and indexes, and periodicals.

Library services include the following:

Acquisitions: The acquisitions unit processes orders for subscriptions and reference materials for the Headquarters Library only.

Bibliographies: These are compiled based on special requests by EPA employees.

Cataloging: The cataloging unit processes books, journals and other documents from all EPA libraries into the EPA national catalog.

Circulation: Documents from the Headquarters Library collection are circulated to EPA employees.

Interlibrary Loan: The interlibrary loan unit maintains cooperative agreements with many academic, public and special libraries to borrow books, journals and other research materials not maintained in the Headquarters collection for the use of EPA staff. The average turnaround time for borrowing through interlibrary loan is 3.5 working days.

Literature Searching: Computerized searching of commercial databases and selected EPA databases is performed for EPA employees to retrieve information for policy decisions, report preparation, data analysis and background research, and for preparation of special subject bibliographies.

Reference: On-site ready reference service is available to EPA staff and the public. More extensive reference service is provided to EPA staff as required.

Equipment: Photocopy machines and microform reader/printers are available to library patrons for the reproduction of up to 25 pages of literature not covered by copyright. Material is loaned to Agency personnel; other users must submit interlibrary loan forms.

Computer assisted literature search services: CAS Online, Chemical Information System (CIS), DIALOG, LEXIS/NEXIS, National Groundwater Information Center Database, National Library of Medicine (NLM) database, NewsNet and EPA's Information Systems Inventory (ISI) and Hazardous Waste Database.

Publications currently available:

- o Bibliographies: Asbestos-in-Schools; Estuarine Management Program; Indoor Air Pollution; Indoor Radon Pollution; Information Resources Management

- o Interlibrary Loan Services of the Headquarters Library.

- o Introduction to Headquarters Library Services and Collections.

- o Searching for Answers, Guide to Database Searching at the EPA Headquarters Library

- o What's New in the EPA Library (monthly)

Region 1, Boston **Codes: EHA/01A**

Librarian: Peg Nelson

Staff:

Library Technician	Judy Saravis
Library Aide	Wayne Malin

Hours: 8:00 a.m. to 5:00 p.m.
Monday - Friday

The EPA Region 1 Library was established in 1967 at the New England Basins Office of the Federal Water Pollution Control Administration. The collection at that time consisted largely of material dealing with water quality and still retains many of the older New England river basins reports. Since the creation of EPA, the collection has been developed extensively in the areas of:

- o Air pollution
- o Hazardous waste
- o Pesticides
- o Solid waste
- o Toxic substances
- o Water pollution

The library is operated by the Information Management Branch of the Planning and Management Division under contract to Ebon Research Systems. The collection consists of approximately 5,000 books, 6,000 documents, 10,000 EPA reports, 150,000 microfiche, and 200 journal titles in three locations: Main and Law libraries in Boston and New England Regional Laboratory library in Lexington, MA.

The library provides a full range of services to EPA staff, and to other Federal, State and municipal agencies. Outside users--consultants, private businesses, students, citizens' groups, and individuals have on-site use of the collection, as well as limited reference service and borrowing privileges.

Library services include the following:

Acquisition: The library orders most of the books and periodicals for the region.

Cataloging: The library catalogs books and documents.

Circulation: Journals, books, documents, and technical reports in both microfiche and hard copy are circulated by the library.

Interlibrary Loan: the library will attempt to borrow any requested material for full service requestors, and will lend to any qualified borrower or library.

Literature Searching: The library will search available computerized databases for full service requestors.

Reference: Both phone and on-site reference assistance are available to anyone. More extensive service is available to full service requestors.

Equipment: A microfiche reader/printer and a photocopy machine are available to library patrons for the reproduction of up to 20 pages.

Computer assisted literature search services: Bibliographic Retrieval Service (BRS), CAS Online, Chemical Information System (CIS), DIALOG, National Library of Medicine (NLM) databases, NEXIS.

Narragansett, Rhode Island **Codes: EMB/01B**

Hours: 8:00 a.m. to 4:30 p.m.
Monday - Friday
Librarian on duty Monday - Thursday

The Environmental Research Laboratory - Narragansett (ERLN), with its Field Station in Newport, Oregon, is the Agency's center for marine, coastal and estuarine water quality research.

The library at ERLN is a highly specialized scientific and technical library, providing support services for the following research areas:

- o Estuarine and marine disposal and discharge of complex wastes, dredged materials, and other wastes
- o Water use designation and quality criteria for estuarine and marine water and sediment
- o Environmental assessment of ocean discharge

These research program areas involve the development, evaluation, and application of techniques and test systems for measuring and predicting the transport, fate, and biological and ecosystem effects of complex and other wastes in estuarine and marine systems.

The primary function of the library is to obtain and provide specialized reference materials and library services for technical and administrative personnel working at ERLN. Secondly, the library will service information requests from other EPA facilities and bona fide libraries.

The library consists of a single centralized core library and numerous specialized individual libraries, located physically as is convenient to the respective users. The library is comprised of: 3,100 books, 38 subscriptions to journals, abstracts and newsletters. Also, a small document collection including EPA reports is held. Subject areas are:

- o aquatic toxicology
- o biological oceanography
- o fisheries biology
- o marine biology
- o marine organisms

The following services are available through the library in support of the on-going research at ERLN:

Selection, acquisition, current awareness, circulation, reference, interlibrary loan, information retrieval, translations, and cataloging.

Equipment: A photocopy machine, personal computer and a microform reader/printer are available for library use.

Region 2, New York **Codes: EIA/02A**

Address: U. S. Environmental Protection Agency
Region 2 Library
26 Federal Plaza
New York NY 10278

Telephone: (212) 264-2881 (CML)
(8) 264-2881 (FTS)

Librarian: Dennis Carey

Hours:

EPA Staff: 8:00 a.m. to 4:30 p.m.
Monday - Friday

Open to Public: 9:00 a.m. to 4:00 p.m
Monday, Wednesday and Friday

The library, organized under the auspices of the Federal Water Pollution Control Administration, embraces all aspects of EPA's environmental mission. The collection includes over 3,000 monographs, 12,000 Federal, State and local documents and technical reports, and 50 journals and abstract services. Holdings are distributed between New York and the field office in Edison, N.J., and focus on subjects relevant to Region 2, which comprises New York, New Jersey, Puerto Rico and the Virgin Islands.

The library is open to the general public for reference purposes.

Services provided to EPA staff and their contractors include: circulation, interlibrary loan, reference, cataloging, and monthly acquisitions list.

Equipment: A microfiche reader-printer is available in the library.

Computer assisted literature search service: DIALOG.

Edison, New Jersey **Codes: EIC/02B**

Address: U. S. Environmental Protection Agency
Region 2 Field Office Library
Edison NJ 08837

Telephone: (201) 321-6762 (CML)
(8) 340-6762 (FTS)

Librarian: Dorothy Szefczyk

Hours: 8:00 a.m. to 4:30 p.m.
Monday - Friday

The library was organized in 1966 under the auspices of the Federal Water Pollution Control Administration. It was originally heavily oriented toward water, but now includes materials on all EPA programs:

- o Air
- o Hazardous wastes
- o Pesticides
- o Radiation
- o Solid waste
- o Toxic substances
- o Water

At present, the collection consists of 3,000 books, 5,000 technical reports, 50 journal subscriptions, and 100,000 reports on microfiche.

Services provided to EPA staff and their contractors include circulation, interlibrary loan, reference, cataloging, and monthly acquisitions list. A microfiche reader/printer is available in the library.

The library is open to the general public for reference purposes.

Computer assisted literature search service: DIALOG.

Region 3, Philadelphia **Codes: EJA/03A**

Address: U. S. Environmental Protection Agency
Region 3 Library (3PM21)
841 Chestnut Street
Philadelphia PA 19107

Telephone: (215) 597-0580 (CML)
(8) 597-0580 (FTS)

Librarian: Diane McCreary

Staff:
Interlibrary Loan — Joyce Baker

Hours: 8:00 a.m. to 4:00 p.m.
Monday - Friday

The Region 3 library provides information support for a wide range of environmental programs and activities conducted by the Regional office. It also serves as an information resource for the general public. Subject areas include:

- o Air pollution
- o Environmental law
- o Hazardous waste
- o Management
- o Pesticides
- o Radiation
- o Toxic Substances
- o Toxicology
- o Water pollution

There is a special collection on wetland ecology. In addition, a special effort is made to acquire published information on environmental conditions and trends within the five states and the District of Columbia which comprise Region 3.

The Region 3 library consists of 4,000 books; 4,000 law books, 200 subscriptions and 800 technical reports in hard copy. There are 60,000 technical reports, 25,000 environmental impact statements and 20,000 articles and other publications on environmental topics in microform.

Library services include the following:

Acquisitions: The Region 3 Library coordinates the acquisition of published material throughout the Regional Office.

Cataloging: All incoming items are processed and added to the library's catalog for quick retrieval.

Circulation: Most items in the library are available to EPA employees on a loan basis.

Interlibrary Loan: Publications not in the Region 3 collection can be borrowed from other government, university, public and corporate libraries. In turn, the Region 3 Library loans items from its collection to other libraries.

Literature Searching: The library maintains access to over 200 databases and performs information searches for EPA employees. The information is used to prepare risk assessments, site investigations and enforcement actions, as well as to respond to inquiries from other agencies, the media and the general public.

Reference: The library staff provide reference assistance to EPA staff and to all library visitors. Assistance is also provided to the public by phone.

Equipment: A photocopier and microform reader/printers are available to library users. Visitors may make a moderate number of copies free; a $.20 per page fee is charged for large amounts of copying.

Computer assisted literature search services: Chemical Information System (CIS), DIALOG, LEXIS/NEXIS, National Groundwater Information Center Databases, National Library of Medicine (NLM) databases, TOXNET.

Law Library
Washington, D.C. **Codes: EJC/03G**

Address: U. S. Environmental Protection Agency
Law Library, LE-130L
401 M Street, S.W., Room 2902
Washington DC 20460

Telephone: (202) 382-5919 (CML)
(8) 382-5919 (FTS)

Librarian: Barbara Pedrini Morrison

Staff: Library Technician Vacant
Interlibrary
Loan Barbara Pedrini Morrison

Hours: 8:00 a.m. to 4:30 p.m.
Monday - Friday

The EPA Law Library is maintained by the Office of General Counsel (OGC) to provide information services to the Agency's legal and enforcement personnel, and to the ten Regional Counsels.

The collection contains approximately 8,000 volumes of legal and law-related material concentrating on Federal law, with special emphasis on administrative and environmental law. Included are statutes, codes, regulations, case reporters, digests, citators, and legal reference sources, as well as looseleaf services, newspapers, and 70 current law reviews and periodicals.

Microfiche holdings include the Congressional Record, the Federal Register, the Code of Federal Regulations, and legislative histories of laws relevant to EPA's mission.

Acquisitions: The Law Library staff processes all orders for new collection materials, and for the books and journals required by individual OGC offices.

Circulation: Materials circulate to in-house Agency staff and, by messenger pickup, to the local community. Interlibrary loans are handled directly in the Law Library, usually within 24 hours.

Reference services (e.g., case identification, cite verification) are provided to the Office of General Counsel, the Administrative Law Judges, the Judicial Officer, and all other EPA personnel who request assistance. Telephone reference is extended to EPA field locations and to numerous private law firms, both local and nationwide. The public is allowed use of the Law Library collection.

Equipment: Copying privileges are extended to Agency employees only. A microform reader/printer is available for patron use.

Computer assisted legal research: Justice Retrieval and Inquiry System (JURIS), LEXIS.

Annapolis, Maryland **Codes: EJD/03C**

Address: U. S. Environmental Protection Agency
Central Regional Laboratory (CRL)
Library
839 Bestgate Road
Annapolis MD 21401

Telephone: (301) 224-2740 (CML)
(8) 922-3752 (FTS)

Librarian: Meg Munro

Hours: 7:00 a.m. to 4:30 p.m.
Monday - Friday
Librarian on duty Tuesday, Wednesday and Friday

The Central Regional Laboratory (CRL) library was established in support of the Regional Laboratory which started in Annapolis in 1964. The subjects in the collection focus on:

- o Biology
- o Chemistry
- o Ecology
- o Engineering
- o Hydrology
- o Oceanography

To serve the highly diversified expertise of the laboratory scientists and engineers, material is provided in aquatic biology, analytical chemistry, automated laboratory techniques, industrial wastewater monitoring, toxic and hazardous substances, and mathematical modelling.

CRL holdings total 1,000 technical books, 4,000 reprints, 60 journal subscriptions, and a large collection of EPA reports. CRL reports deal with water quality management of the Chesapeake Bay and other estuaries of the Mid-Atlantic region, and the continental shelf off Maryland and Delaware.

Library services available are acquisition, interlibrary loan, literature searches, current awareness, with reference and information services.

The library users include the laboratory staff, EPA libraries, Federal and State agencies, academic institutions, the scientific community, students and the general public.

The library houses an extensive special collection on the Chesapeake Bay.

Office of Toxic Substances
Chemical Library
Washington, D.C. **Codes: EJE/03T**

Office of Toxic Substances
Chemical Library, TS-793
401 M Street, S.W.
Washington DC 20460

Telephone: (202) 382-3529 (CML)
(8) 382-3529 (FTS)

Librarian: Geraldine D. Nowak

Staff:

Librarian	Janettte Petty
Library Technician	Hattie Sykes
Librarian Technician	Bettie Sterling
Machine Operator	Mary Begg
Library Support (contractor)	Lisa Frisch

Hours: 7:30 a.m. - 5:00 p.m.
Monday - Friday

The Office of Toxic Substances (OTS) Chemical Library is in the Information Management Division, Office of Toxic Substances, Office of Pesticides and Toxic Substances (OPTS).

The Chemical Library collection covers chemical literature in areas of:

- o Biotechnology
- o Chemical industry and process technology
- o Ecology
- o Health
- o International chemical control
- o Pesticides

The library supports program activities under the Toxic Substances Control Act (TSCA) and the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

The Chemical Library has 5,000 books, 200 current journals, a collection of 5,000 technical reports, including those supported by OPTS, a microfiche collection of 140,000 scientific and technical journal articles, and three national newspapers.

Library services include the following:

Acquisitions: Program-related, priority materials requested by the Office of Toxic Substances are acquired.

Cataloging: All books and reference materials acquired are cataloged and entered into the EPA national catalog.

Circulation: Books and reports circulate to EPA employees.

Interlibrary Loan: The Chemical Library borrows materials from other libraries for OTS staff. Materials from the main collection are loaned to other EPA, government, private and international libraries.

Literature searching: Computerized and manual searches are compiled for OTS staff. Bibliographies of national interest are shared with EPA.

Reference: Extensive reference service is provided to OTS. Ready reference is provided to EPA and to a limited extent to the public.

Equipment: The Chemical Library staff will duplicate library materials for OTS staff. A photocopier and microform reader/printers are available for use by EPA staff and visitors. Non-Federal visitors are limited to 20 pages of copied materials.

Computer assisted literature search services: Bibliographic Retrieval Service (BRS), CAS Online, DIALOG, National Library of Medicine, OCLC, and all OTS developed databases.

Region 4, Atlanta **Codes: EKA/04A**

Address: U. S. Environmental Protection Agency
Region 4 Library (G6)
345 Courtland Street, N.E.
Atlanta GA 30365-2401

Telephone: (404) 347-4216 (CML)
(8) 257-4216 (FTS)

Librarian: Gayle Alston

Staff:

Library Technician	Bill Marx
Library Aide	Pamela Dallas

Hours: 8:00 a.m. - 5:00 p.m.
Monday - Friday

The Region 4 Library was established in May, 1973, and provides a full range of library and information services, covering subjects from air and water pollution to toxics and hazardous waste with a variety of technical reports, reference books, journals and online computer services.

Along with its large collection of environmental materials, the library offers reference/research services, online literature searches, interlibrary loan, selected chemical and pesticide files and current awareness services.

At present the library owns approximately 4,500 reference books, 60,000 technical reports, 250 journals and newsletters, and an extensive microfilm collection of EPA reports, environmental impact statements and Federal Registers. Of special interest are the environmental problems of the Southeastern United States, namely, Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina and Tennessee.

Region 4 employees may borrow most library materials for three weeks. Limited reference and loan services are also provided to the public. The Library accepts telephone, mail requests and OCLC requests from other libraries.

Books are cataloged on OCLC and then entered into an in-house database system. Documents are cataloged into major subject areas including: air, energy, general, hazardous, land, noise, water, USGS (U.S. Geological Survey), soil surveys, and the eight states in the Region. Journals are not cataloged at the present time, but simply shelved alphabetically.

Computer assisted literature search services: CAS Online, Chemical Information System (CIS), DIALOG, Dun and Bradstreet, Hazardline, National Library of Medicine (NLM), National Pesticide Information Retrieval System.

Library Services Office
Research Triangle Park,
North Carolina **Codes: EKB/04B**

Address: U. S. Environmental Protection Agency
Library Services Office, MD-35
Research Triangle Park NC 27711

Staff:

Air Information Center and Reference	Ann Ingram 629-2777
Interlibrary Loan	Rosemary Thorne 629-0094
Library Technician	Jean Myers 629-4242
Photocopy Operator	Creighton Wellman
Information Center (RIC II)	Ann Ingram 629-3661

Hours: 8:30 a.m. to 4:30 p.m.
Monday - Friday

The Research Triangle Park (RTP) Library provides support to the Environmental Research Center, the Office of Air Quality Planning and Standards (OAQPS), the Environmental Criteria and Assessment Office, the National Computer Center and local Agency contractors.

Collection concentration is on chemical toxicity, all aspects of air pollution as well as the basic sciences, with some coverage of business and economics. The collection's historical coverage of air pollution is particularly strong. Hard copies of obscure materials from Air Pollution Abstracts (1966-1976) are maintained.

The Library operates an Air Information Center (AIC) for the OAQPS. This Center handles requests for air pollution information and documents from all over the world. The AIC provides free literature searches to State and local air pollution agency employees and environmental groups as well.

Services include extensive literature searching support; interlibrary loan, utilizing a combination of off-site photocopying truck delivery service from local libraries and blanket purchase agreements with major research libraries in this country and abroad; reference and acquisitions.

The Library is staffed with Government personnel and through a contract with the University of North Carolina Graduate School of Library Science. Contractor personnel are primarily library school graduate students.

Computer assisted literature search services: Bibliographic Retrieval Service (BRS), CAS Online, Chemical Information System (CIS), DIALOG, Hazardline, National Library of Medicine (NLM) databases.

In October, 1985, the EPA opened an Information Center (RICII) in the RTP Library. The Center is designed to handle questions, one-on-one training, demonstrations, and assistance for Agency personnel using personal computers and software packages.

Gulf Breeze, Florida **Codes: EKC/04H**

Address: U. S. Environmental Protection Agency
Environmental Research Laboratory
(ERL) Library
Sabine Island
Gulf Breeze FL 32561

Telephone: (904) 932-5311, ext. 218 (CML)
(8) 686-9011, ext. 218 (FTS)

Librarian: Susan Means

Staff:
Library Technician/ILL Alice Pool
Library Aide Liz Hawthorne

Hours: 7:30 a.m. to 4:00 p.m.
Monday - Friday

The Gulf Breeze Environmental Research Laboratory (GBERL) Library, established in 1967, provides information services to GBERL employees and the general public. The Library collection is comprised of approximately 5,000 volumes; 225 journals, newsletters, abstracts and indexes; 1,600 documents; and 36,000 microform titles.
Subject areas include:

- o Aquatic toxicology
- o Genetic engineering
- o Marine ecology
- o Microbiology
- o Pathobiology
- o Pesticide science

Library services include selection, acquisition, cataloging of new materials; circulation of materials to laboratory staff and interlibrary loan to other libraries; manual and on-line literature searches of commercial and government databases; and on-site reference service to laboratory staff and the public as well as telephone ready reference.

The Library archives and distributes copies of all laboratory publications. Computer-generated bibliographies of this collection, complete with author and keyword indexes, are available on request.

A photocopy machine and microform reader/printer are available to laboratory staff for the reproduction of material not covered by copyright. The Library uses two Hewlett Packard 2621P terminals to access the laboratory DEC PDP 11/70 minicomputer and other external databases.

Computer assisted literature search services: CAS Online, DIALOG, National Groundwater Information Center Database, National Library of Medicine (NLM) databases.

College Station Road
Athens GA 30613

Telephone: (404) 546-3324 (CML)
(8) 250-3324 (FTS)

Librarian: Janice Sims

Hours: 8:15 a.m. to 4:45 p.m.
Monday - Friday

The Athens Environmental Research Laboratory (ERL) library provides information services covering a wide range of environmental and management subjects of interest to EPA staff and the general public. Providing the necessary information sources to meet the needs of the Laboratory research staff is of utmost importance. Subject areas include:

- o Biology
- o Chemistry
- o Engineering
- o Microbiology
- o Pesticides
- o Water pollution
- o Water quality

The Athens Library collection is comprised of: 8,000 books; 85 current subscriptions to journals and newsletters; 7,500 documents and technical reports generated by government sources or the private sector; 50,000 documents on microfiche, including technical reports produced by EPA; and a microfilm collection that includes back files of abstracts and indexes, and periodicals.
Library services include the following:

Acquisitions: Books, newsletters, journal subscriptions, and technical reports are ordered by the Librarian.

Circulation: Documents from the Athens ERL Library collection are circulated to EPA staff and the general public.

Interlibrary Loan: Interlibrary loan services are available to other EPA libraries, government and university libraries. The library uses the OCLC interlibrary loan subsystem to borrow books, journals and other research materials not maintained in the library collection for the use of EPA staff.

Literature Searching: Computerized searching of databases is performed for Athens ERL employees to retrieve information for report preparation, data analysis and background research, and for preparation of special subject bibliographies.

Reference: On-site reference service is available to EPA staff and the public. More extensive reference service is provided to EPA staff as required.

Equipment: Photocopy machines and microform reader/printers are available to library patrons for the reproduction of literature.

Computer assisted literature search services: DIALOG, Chemical Information System (CIS), National Groundwater Information Center Database.

OAQPS
Research Triangle Park,
North Carolina **Codes: EKE/04G**

Address: U. S. Environmental Protection Agency
Office of Air Quality Planning and Standards
826 Mutual Plaza, MD-16
Research Triangle Park NC 27711

Telephone: (919) 541-5514 (CML)
(8) 629-5514 (FTS)

Librarian: University of North Carolina Library School Graduate Student

Hours: 8:00 a.m. to 5:00 p.m.
Monday - Friday
Librarian's hours vary

The Office of Air Quality Planning and Standards (OAQPS) Library was established as a unit of the Department of Health, Education and Welfare and was transferred from Cincinnati, Ohio, to Durham, North Carolina, in 1968. Since then it has undergone several parent organization changes and in April, 1971, was designated as part of the Environmental Protection Agency.

In 1981, the library began to be staffed by student interns as part of the contract between Library Services/Research Triangle Park (RTP) and the University of North Carolina-Chapel Hill. The University provides student help on a half-time basis. The OAQPS library is a branch of the Library Services/RTP. Reference questions related to air pollution and research can be directed to that library (see pages 20-21).

The library consists of approximately 900 books, 90 journals and newsletters, and a complete collection of EPA/OAQPS reports. The subject focus is on air pollution and control technology, including material on costs, chemical technology, minerals and statistics. The reference collection emphasizes chemistry and engineering.

Library services include the following:

Acquisitions: The library procures new materials for the use of OAQPS personnel, including monographs, journals and government reports.

Circulation: Materials from the collection are circulated to EPA employees and contractors.

Interlibrary Loan (ILL): ILL requests by EPA personnel are forwarded to Library Services/RTP if the material cannot be supplied from OAQPS materials. ILL requests from other libraries for OAQPS materials are completed by the OAQPS librarian.

Reference: On-site reference service is available to EPA staff and the public. Because of limited in-house facilities, the librarian may contact Library Services/RTP or local universities to obtain necessary information.

Equipment: A microfiche reader/printer and a photocopier are available.

ASRL - Meteorology
Research Triangle Park,
North Carolina **Codes: EKF/04L**

Address: U. S. Environmental Protection Agency
ASRL - Meteorology Division
Library (MD-80)
Research Triangle Park NC 27711

Telephone: (919) 541-4536 (CML)
(8) 629-4536 (FTS)

Librarian: Evelyn Poole-Kober

Hours: 7:30 a.m. to 5:00 p.m.
Monday - Friday

The Atmospheric Sciences Research Laboratory (ASRL)/Meteorology Division library originated in 1958 at the Robert S. Taft Sanitary Engineering Center in Cincinnati, Ohio. Through a series of government reorganizations it was transferred to North Carolina in 1968 and became a part of the Environmental Protection Agency at Research Triangle Park in 1971.

Its major field of interest is the meteorological aspects of air pollution, including model development and application, climatic analysis, and geophysical studies.

The collection includes 3,200 books, 125 scientific journal subscriptions and 1,300 technical reports. The library also holds a collection of climatic data material consisting of approximately 4,000 climatic data reports on microfiche, over 400 rolls of film of synoptic data, surface and vorticity charts, and a large body of topographic maps.

Interlibrary loan, acquisition, circulation, literature searching and reference services are provided to EPA personnel and to National Oceanic and Atmospheric Administration meteorologists. Reference service is available to Agency contractors, local university faculty and students, and the general public.

Region 5, Chicago **Codes: ELA/05A**

Address: U. S. Environmental Protection Agency
Region 5 Library
230 South Dearborn Street., Room 1670
Chicago IL 60604

Telephone: (312) 353-2022 (CML)
(8) 353-2022 (FTS)

Librarian: Lou W. Tilley

Staff:

Librarian	Katherine Tsang
Library Technician	Merle Margolis
Library Aide	Terri Roberts

Hours: 10:00 a.m. - 5:00 p.m.
Monday - Friday
(Only Regional staff may use the library before 10:00 a.m.)

The Region 5 library was established in January 1972 and is part of the Region's Office of Public Affairs. Much of the initial collection was acquired from pre-EPA offices in Chicago in the then Department of Health, Education and Welfare's Public Health Service and the Department of the Interior's Federal Water Pollution Control Administration (later Federal Water Quality Administration).

The library is staffed by EPA and contractor personnel and provides services to EPA staff and, on a more limited basis, to the general public.
The subject areas of the collection are:

- o Air pollution
- o Air quality
- o Groundwater
- o Hazardous wastes
- o Noise
- o Pesticides
- o Recycling and resource recovery
- o Solid waste management
- o Toxic substances
- o Water pollution
- o Water quality
- o Water supply (drinking water)

The emphasis is on the Great Lakes and the six states in the Region: Illinois, Indiana, Michigan, Minnesota, Ohio and Wisconsin.

The current collection consists of 15,000-18,000 technical documents and reports in paper copy generated by international, Federal, interstate, State, regional and local government agencies (including EPA) and by private

endeavors. The collection includes 3,600 books, 350 journal subscriptions, including abstracts and indexes, newsletters, newspapers. There are some 110,000 microfiche items in the collection (including a fairly complete collection of EPA predecessor agency reports, Federal Register, etc.).

There is a sizable collection of the U.S. Geological Survey Water Supply Papers and a fairly complete collection of the Water Resources Data for Region 5 states and other contiguous states. Paper copy of proceedings of most of the Great Lakes enforcement conferences held in the Region 5 states are available in the Library. Other special collections include EIC Statefiche, Environmental Impact Statements (EIS) microfiche (19731985) with indexes, 85,000 Air Pollution Technical Information Center (APTIC) items in microfiche, about 75 videocassette tapes, and a law collection (housed in another corridor with the Office of Regional Counsel (ORC)).

There is a vertical file collection of pamphlet/reprint/ brochure materials.

Library services include the following:

Acquisitions: Processes procurement actions for new/renewing subscriptions, books, documents, technical reports, microforms, etc., as requested by program staff in the Region and to enhance the reference collection.

Cataloging: Processes books, documents and other materials for the Regional collection.

Circulation: Materials from the Regional collection are loaned or routed to Regional office staff as requested or for selective dissemination of information (SDI).

Interlibrary Loan: Materials not in the Regional collection are borrowed on loan for Regional staff from other EPA libraries or other libraries, as requested. Loans are made to other EPA libraries, other libraries and to other authorized borrowers, as requested.

Reference: On-site ready reference is available to Regional staff and, on a more limited basis, to the general public.

Equipment: Microform readers and reader/printers are available to patrons for reading/reproducing microforms. There are limitations on usage by non-EPA staff.

Computer assisted literature search services: Bibliographic Retrieval Service (BRS), Chemical Information System (CIS), DIALOG, National Groundwater Information Center Database SDC/ORBIT. Also available through the Library is access to the ORC's LEXIS/NEXIS system.

Cincinnati, Ohio **Codes: ELB/058**

Monday - Friday
Visitors: 8:00 a.m. to 4:30 p.m.
Monday - Friday

The Andrew W. Briedenbach Environmental Research Center (AWBERC) Library is a composite of the holdings, dating from 1950, of the Public Health Service and the Federal Water Pollution Control Administration. The facility, established in 1971, served at one time as the scientific and technical focal point for all EPA libraries. It was moved to its present location in 1976. The major subjects in the collection are:

- o Bacteriology
- o Biology
- o Biotechnology
- o Chemistry
- o Engineering
- o Hazardous waste
- o Microbiology
- o Physics
- o Solid waste management
- o Water pollution
- o Water quality

The holdings consist of extensive technical reports in these areas: 16,000 books, including general legal materials; 7,000 bound periodicals (most back issues are on microfilm); 1,000 current journal and newsletter subscriptions; 4 newspapers; 200,000 reports, either in hard copy or on microfiche; and various EPA publications.

Library services include the following:

Circulation: Materials may be borrowed by EPA personnel only; all other requests are handled through interlibrary loan (ILL). Books will be loaned, journal articles and technical reports will be reproduced.

Interlibrary Loan: The interlibrary loan department particpates in the OCLC ILL subsystem. They have cooperative agreements with many Federal, academic and special libraries and are a member of the Greater Midwest Regional Medical Libraries Network. Telephone requests are accepted for rush ILL's.

Literature Searching: Online literature searches are performed for EPA personnel in Cincinnati, as well as any EPA library that does not have online searching capabilities.

Reference: Reference assistance is available to the EPA staff and to the public as time permits.

Equipment: Photocopy machines and microform reader/printers are available to library patrons for the reproduction of up to 15 pages of information.

Computer assisted literature search services: Bibliographic Retrieval Service (BRS), CAS Online, Chemical Information System (CIS), DIALOG, Hazardline, National Library of Medicine (NLM) databases, TOXLINE.

Ann Arbor, Michigan **Codes: ELC/05D**

Address: U. S. Environmental Protection Agency
Motor Vehicle Emission Laboratory
Library
2565 Plymouth Road
Ann Arbor MI 48105

Telephone: (313) 668-4311 (CML)
(8) 374-8311 (FTS)

Librarian: Debra Talsma

Hours: 8:30 a.m. - 5:00 p.m.
Monday - Friday

The Motor Vehicle Emission Laboratory (MVEL) is operated by the Administrative Management Staff, under contract to Ebon Research Systems. It provides information services concentrated on automative engineering to EPA staff and the general public.

Subject areas include:

- o Air pollution from mobile sources
- o Alternative alcohol fuels
- o Motor vehicle retrofit devices

The MVEL collection is comprised of: 300 books, 45 current subscriptions to journals, abstracts and indexes, newsletters and newspapers; 20,000 hard copy documents and technical reports generated by government sources or the private sector; 20,000 documents on microfiche, including technical reports produced by EPA and its predecessor agencies; and a microfiche collection that includes back issues of the Federal Register and Applications for Certification. The Library also has 10,000 Society of Automotive Engineers papers related to topics in automotive emissions, fuel economy and new automotive technology.

There is a vertical file collection of newspaper reprints and pamphlet material relating to the field of automotive engineering. A small law collection pertaining to mobile source air pollution is also maintained.

Library services include the following:

Acquisitions: In addition to procuring new materials for the library, the librarian processes orders for subscriptions and reference materials ordered by MVEL division offices.

Cataloging: The librarian processes books, journals and other documents into the EPA national catalog.

Circulation: Documents from the MVEL library collection are circulated to EPA employees. Permission must be obtained from the librarian to circulate to outside users.

Interlibrary Loan (ILL): The library provides ILL services to all libraries in accordance with copyright law and existing agreements. Requests are accepted from EPA libraries either in writing or by telephone; other libraries must submit an ILL form.

Literature Searching: The EPA library located in Cincinnati, Ohio, performs literature searches for the MVEL Library. EPA employees requesting literature searches must contact the MVEL librarian.

Reference: On-site reference service is provided to the EPA staff and to users from the university community, industry and the general public, unless extensive. The Librarian also acts as the MVEL public information source and handles the MVEL records management program.

Equipment: Photocopy machines and microfiche reader/printers are available to library patrons for reproduction. Copying facilities are available to the public, with a limit of 25 pages.

Duluth, Minnesota **Codes: ELD/05C**

Address: U. S. Environmental Protection Agency
Environmental Research Laboratory
Library
6201 Congdon Boulevard
Duluth MN 55804

Telephone: (218) 720-5538 (CML)
(8) 780-5538 (FTS)

Librarian: Mary Harden

Hours: 6:30 a.m. to 3:00 p.m.
Monday - Friday

The library was founded in 1967 for the purpose of assisting the research staff of the then National Water Quality Laboratory.

Its major fields of interest are:

- o Analytical chemistry
- o Fisheries biology
- o Water pollution

The holdings comprise 1,400 books, 150 journal subscriptions, an extensive reprint collection, microfiche reports, and over 2,500 Federal, State and local documents and technical reports.

Library services include mailing reprints, acquisition, circulation, interlibrary loan and reference. The reference services of the library are available to the neighboring university communities and the general public.

Region 6, Dallas **Codes: EMA/06A**

Address: U. S. Environmental Protection Agency
Region 6 Information Center
1201 Elm Street
First International Building
Dallas TX 75270

Telephone: (214) 767-7341 (CML)
(8) 729-7341 (FTS)

Information Center
Coordinator: Nita House

Staff: Technician Leticia Lane

Hours: 8:00 a.m. to 4:30 p.m.
Monday - Friday

Reference materials for water quality planning constituted the beginning of the collection which became the EPA Region 6 library in July, 1971. The library includes materials on all EPA programs: air, water, solid waste, pesticides, toxic substances, noise and radiation, particularly as they relate to the States within the Region: Arkansas, Louisiana, New Mexico, Oklahoma and Texas.

Services provided include circulation, reference and interlibrary loan.

Ada, Oklahoma **Codes: EMB/06B**

Address: U. S. Environmental Protection Agency
Robert S. Kerr Environmental Research
Laboratory Library
P. O. Box 1198
Ada OK 74820

Telephone: (405) 332-8800 (CML)
(8) 743-2241 (FTS)

Librarian: Stanley Shannon

Hours: 8:00 a.m. to 4:30 p.m.
Monday - Friday

The Robert S. Kerr Environmental Research Laboratory is the Agency's center of expertise for investigation of the soil and subsurface environment, and is one of the 14 major research laboratories of EPA's Office of Research and Development.

The library, established in 1966 as part of the Federal Water Pollution Control Administration, functions in support of the research programs of the laboratory by providing access to an unlimited amount of scientific and technical information relevant to the laboratory's mission. Major subject areas covered are:

- o Agriculture
- o Biology
- o Chemistry
- o Waste engineering

The holdings consist of approximately 2,000 books, 80 journal subscriptions, 2,000 maps, and 20,000 documents, either in hard copy or on microfiche, including technical reports produced by EPA and its predecessor agencies, and a comprehensive collection of U.S. Geological Survey Water Supply Papers.

Library services include acquisitions, circulation, reference, literature searching, interlibrary loan, and current awareness. Reference services are available to the neighboring university community and the general public.

Equipment: A photocopy machine and microform reader/printers are available to the users.

Region 7, Kansas City **Codes: ENA/07A**

Address: U. S. Environmental Protection Agency
Region 7 Library
726 Minnesota Avenue
Kansas City KS 66101

Telephone: (913) 236-2828 (CML)
(8) 757-2828 (FTS)

Librarian: Constance McKenzie

Hours: 7:00 a.m. to 4:30 p.m.
Monday - Friday

The Region 7 library is part of the Administration and Information Management Branch of the Office of Policy and Management. It provides information on a wide range of environmental subjects of interest to the Regional staff and the general public. Subject areas include:

- o Agricultural pollution
- o Air pollution
- o Environmental law
- o Hazardous waste
- o Pesticides
- o Radiation
- o Solid waste management
- o Water pollution
- o Water quality
- o Water supply

The library's holdings consist of: 1,400 books; 42 periodicals; 3,400 hard copy documents and technical reports published by government agencies or the private sector; 105,000 documents on microfiche, including EPA and other agency's technical reports and the Federal Register from 1970 to present.

Library services include the following:

Acquisitions: Books, periodicals and newspapers are ordered for the Regional program offices.

Cataloging: Library materials are cataloged into the EPA national catalog.

Circulation: Periodicals and documents from the library collection are circulated to Regional staff.

Interlibrary Loan: Loans for books, periodicals and other research materials not maintained in the Regional library's collection are arranged through other EPA libraries and many academic, public and special libraries.

Literature Searching: Computerized searching of databases is arranged through the library for Regional staff. Some searches are completed in the Regional library while others are processed through the EPA libraries in Cincinnati, Ohio, and Research Triangle Park, N.C.

Reference: On-site ready reference service is available to EPA staff and the general public.

Equipment: A photocopy machine and microfiche reader/printers are available for library users.

Computer assisted literature search services: Chemical Information System (CIS), LEXIS/NEXIS, National Library of Medicine (NLM) databases, WATSTORE (U.S. Geological Survey database).

Region 8, Denver **Codes: EOA/08A**

Address: U. S. Environmental Protection Agency
Region 8 Library, 8PM-IML
999 18th Street, Suite 1300
Denver CO 80202-2413

Telephone: (303) 293-1444 (CML)
(8) 564-1444 (FTS)

Librarian: Dolores Eddy

Staff:

Library Technician	Tula Lazorchak
Library Aide	Sheila Kersens

Organized in 1973, the Region 8 library includes materials on all EPA programs: air, water, hazardous and solid waste, pesticides, toxic substances, noise and radiation, particularly as they relate to the States within the Region: Colorado, Montana, North Dakota, South Dakota, Utah and Wyoming. In addition, because the Rocky Mountain area is ich in energy resources, the library collects material relating to energy resource development and its relationship to the environment. And finally, to support other Agency programs, the collection incorporates publications relating to economics, planning, transportation, management and employee development.

General library services including reference, research, database searching, and interlibrary loan are available to Regional office staff. Second copies of EPA reports are available for loan to other libraries, government agencies, businesses and organizations in the Region. Limited telephone and in-person reference service to outside users is provided as time and staffing permit.

Equipment: Public duplicating facilities are available in the building for paper copies. The library will copy up to 10 pages per user at no charge.

Computer assisted literature search services: CARL (Colorado Association of Research Libraries), Chemical Information System (CIS), DIALOG, National Groundwater Information Center Database, NEXIS, OCLC.

The library is a member of the Central Colorado Library System which provides courier services for the libraries in the region.

Denver, Colorado **Codes: EOB/OBB**

Address: U. S. Environmental Protection Agency
National Enforcement
Investigations Center
Library
Building 53, Box 25227
Denver Federal Center
Denver CO 80225

Telephone: (303) 236-3219 (CML)
(8) 776-3219 (FTS)

Librarian: Dorothy Biggs

Hours: 7:30 a.m. to 4:30 p.m.
Monday - Friday

The library of the National Enforcement Investigations Center (NEIC) of EPA's Office of Enforcement and Compliance Monitoring was established in Denver in January, 1972. The Library is a component of the NEIC Information Center.

The collection comprises case files, technical reports, data compilations and background information used to develop the basis for field studies and enforcement actions; research and development reports on municipal, industrial and agricultural pollution abatement practices; enforcement conference documents and environmental law materials; technical reference materials covering chemistry, pesticides, toxic substances, air technology and hazardous wastes. Holdings include 1,000 books; 100 journal (85 current subscriptions) and numerous paper and microfiche documents.

The library disseminates technical and enforcement reports produced by the NEIC staff. The library shares its resources through interlibrary loan services via OCLC and telephone or mail requests. Response time to requests for reports and interlibrary loans is normally less than 24 hours. All services are provided without charge.

Reference service is provided for NEIC staff and other EPA personnel.

Equipment includes microform reader/printers and a microfiche copier.

The Information Center provides a common use area to allow staff access to computer, graphics, and word processing equipment. Literature searching is provided to NEIC staff and to support enforcement activity by EPA personnel.

Computer assisted literature search services: Commercial databases: Bibliographic Retrieval Service (BRS), DIALOG, Justice Retrieval and Inquiry System (JURIS), National Library of Medicine (NLM) databases, NEXIS, VU-TEXT. EPA databases: Compliance Data System (CDS), Comprehensive Environmental Response, Compensation and Liability

Information System (CERCLIS), Consent Decree Tracking System, Facilities Tracking System (FINDS), Hazardous Waste Data Management System (HWDMS), Permit Compliance System (PCS), (Superfund Financial Assessment System (SFFAS), Storage and Retrieval of Water Quality Information (STORET).

Region 9, San Francisco **Codes: ERA/09A**

Address: U. S. Environmental Protection Agency
Region 9 Library
215 Fremont Street, 6th Floor
San Francisco CA 94105

Telephone: (415) 974-8082 (CML)
(8) 454-8082 (FTS)

Librarian: Marsha Saylor

Staff:

Reference Librarian	Judith Demeter
Information Specialist	Ernestine Vaden
Information Specialist	Carolyn Kovar
Library Technician	G. Lynn Fox
Library Aide	Richard Pang

Hours: 8:00 a.m. to 4:30 p.m.
Monday - Friday

The Region 9 library is part of the Information Services Center. It provides library and information services to staff of approximately 500 and the general public. Major subject areas include:

- o Air pollution and control
- o Environmental health and safety
- o Hazardous waste
- o Law
- o Pesticides
- o Radiation
- o Research and development
- o Solid waste

Included in the Region 9 collection are 5000 books, over 60,000 hard copy reports (EPA and private sector), documents, and monographs; 380 journal subscriptions; approximately 350,000 documents on microfiche; U.S. Geological Survey and Wetland Maps; indexes; bibliographies; and EPA manuals and directives.

Library services include the following:

Acquisitions: The Region 9 library processes all requests for books, reports and journal subscriptions submitted by the staff in addition to monitoring and ordering items needed to enhance the collection.

Cataloging: The cataloging personnel process all monographs, reports and documents sent to the library and all credible donations.

Circulation: All items (except microfiche and looseleaf items) in the collection are circulated to staff and, through interlibrary loan, to other libraries.

Interlibrary Loan: The Library Technician handles all interlibrary loan requests, whether from staff or other libraries. We are presently working on a 48-hour response cycle for in-house requests.

Reference: Reference is divided into a public response function staffed by the Information Specialists and the Reference Librarian, and staff reference provided by the Librarians. Staff reference generally includes manual literature searching. Additionally, briefings on library services and personnel are given to any section that requests this service.

Equipment: One photocopy machine and two microform reader/printers are available for copying purposes. The public is charged $.20 per page in excess of 10 pages.

Computer assisted literature search services: Chemical Information System (CIS), DIALOG, and Hazardline.

Las Vegas, Nevada **Codes: ERB/09B**

Address: U. S. Environmental Protection Agency
Environmental Monitoring Systems
Laboratory Library
944 E. Harmon Avenue
(P.O. Box 15027, Zip 89114)
Las Vegas NV 89109

Telephone: (702) 798-2648 - 2646 (CML)
(8) 545-2648 - 2646 (FTS)

Librarian: Doreen Wickman

Staff: Mary E. Campbell

Hours: 7:45 a.m. - 4:30 p.m.
Monday - Friday

The Environmental Monitoring Systems Laboratory (EMSL) library is operated by the General Services Branch of the Office of Program Management and Support under contract to Ebon Research Systems. The library was established in 1966 as part of the Public Health Service, Southwestern Radiological Health Laboratory. Materials were primarily oriented toward nuclear science at that time. When the facility became part of EPA in 1970, the collection was broadened to include all aspects of environmental science.

The mission of the Environmental Monitoring Systems Laboratory is to:

- Develop for EPA client offices multi-media monitoring technologies and approaches for assessing exposure of man and his environment to pollutants.
- Demonstrate advanced monitoring systems and techniques by applying them to fulfill special monitoring needs of the Agency.
- Develop guidance on standardization and quality assurance aspects of radiation, hazardous waste, toxic substances, and pesticide measurements.
- Provide monitoring and surveillance services around nuclear weapons testing sites and at sites with special environmental significance.

The present collection of the EMSL library supports this mission.

The holdings include 1,092 books; 1,200 hard copy technical reports; 42,337 microfiche reports, and subscriptions to more than 150 scientific journals and newspapers.

Library services include the following: Reference, acquisitions, circulation, interlibrary loan and computer assisted literature searches. All library services are provided to EPA staff. Reference and copying services are available to the general public.

Equipment: A photocopy machine, two microform reader/printers, a duplifiche developer, duplifiche printer and a Decwriter III terminal.

Region 10, Seattle **Codes: ESA/10A**

Address: U. S. Environmental Protection Agency
Region 10 Library
1200 Sixth Avenue
Seattle WA 98101

Telephone: (206) 442-1289 or 1259 (CML)
(8) 399-1289 or 1259 (FTS)

Librarian: Julienne Sears

Staff:

Assistant Librarian	Patricia Devine
Library Aide	Darci Dudel
OPA Publications Clerk	Bertha Sauls
Clerk-Typist	Michelle Kim

Hours: 8:00 a.m. to 4:30 p.m.
Monday - Friday

The library came into existence in 1971, based on material from the Federal Water Quality Administration office in Portland, Oregon. The collection was originally heavily oriented toward water pollution, but has since been developed to encompass all other areas of environmental quality.

At present, the holdings include monographs, serials, a basic environmental law collection, EPA reports (both hard copy and microfiche) and local and State government reports. The non-EPA portion of the collection is focused mainly on materials pertinent to the four Region 10 States: Alaska, Idaho, Oregon and Washington.

Library services include the following:

Acquisitions: The librarian selects all books, serials, and documents for the library including all legal materials. Additionally, the librarian assists with and approves all procurements for the Region 10 laboratory, the four State program offices and Seattle program offices. Centralized subscriptions procurement for all six sites is handled through a serials jobber.

Cataloging: Original cataloging and holdings updating information are submitted to the EPA Headquarters Technical Services Section in Washington, D.C. for entry into OCLC.

Circulation: All library materials circulate to Region 10 staff. EPA technical reports are circulated to non-EPA staff throughout the region. Region 10 EPA reports are available for loan throughout the country.

Interlibrary Loan (ILL): Interlibrary loans are transacted primarily through OCLC, but phone requests and ILL forms are also accepted. The library also uses the University of Washington Library's Resource Sharing Program for which fees are paid. The average turnaround time is 5 working days.

Reference: On-site ready reference service is available to EPA staff and the general public. More extensive reference service is provided to EPA staff as required.

Equipment: Microform readers are available in the library. Microform copies and photocopies are available to EPA staff; a limited number of copies may be made by other Federal agency employees. Public copiers are not available.

Computer assisted literature search services: DIALOG, LEXIS/NEXIS, National Library of Medicine (NLM) databases, National Groundwater Information Center Database.

Corvallis, Oregon **Codes: LSB/10B**

Address: U. S. Environmental Protection Agency
Corvallis Environmental Research
Laboratory
Library
200 SW 35th Street
Corvallis OR 97333

Telephone: (503) 757-4731 (CML)

Librarian: Betty M. McCauley

Staff:
Library Technician Peggy Walch

Hours: 8:00 a.m. to 4:30 p.m.
Monday - Friday

The Corvallis Environmental Research Laboratory (CERL) Library was established in 1966, when the Pacific Northwest Water Laboratory of the Federal Water Pollution Control Administration was opened. The emphasis was on marine, estuarine and fresh water quality. Since EPA was established in 1970, the laboratory's responsibilities and the library collection have been broadened to include air and terresterial research.

At present the laboratory has three branches: Toxics and Pesticides Branch, Hazardous Materials and Water Branch and the Air Branch. Research concerns acid precipitation and its effects on the ecosystem, wildlife toxicology, genetic engineering, wetlands and hazardous waste.

The library collection consists of 3,500 books, over 150 subscriptions to journals and newsletters, and an extensive file of government documents, including EPA reports and State and Federal research reports. Microfiche and microfilm expand the holdings. A comprehensive reprint collection on acid precipitation and air ecology is maintained.

Library services include the following:

Acquisitions: Books are purchased at the request of laboratory employees to support ongoing research.

Cataloging: All books and library materials are cataloged into the EPA national catalog.

Circulation: Library materials are loaned to EPA staff and on-site contractors. Local university staff also borrow materials. Students and private citizens may use the materials in the library.

Interlibrary Loan: Books not available in the CERL library or through the Oregon State University Library are obtained using a network of interlibrary loan resources, including the computerized facilities of OCLC.

Reference: Ready reference service is available for EPA staff and the general public. The library also networks with other EPA and special libraries, thus extending the resources for reference requirements that go beyond the on-site collection.

Equipment: The library provides reader/printers for patrons who need to use microform materials. Photocopy equipment is located near the library.

Computer assisted literature search services: Chemical Information System (CIS), DIALOG, National Library of Medicine (NLM) databases.

LEGEND OF EPA LIBRARY CODES

To assist in calling the various EPA locations, time zones have been included. The relationship is:

Eastern (E)	Noon
Central (C)	11:00 a.m.
Mountain (M)	10:00 a.m.
Pacific (P)	9:00 a.m.

SUBJECT AREAS OF EPA LIBRARY COLLECTIONS

All EPA libraries have some information on all of EPA's programs: air, noise, water, solid waste, hazardous waste, toxic substances, pesticides and radiation. Several of the libraries also have collections on major subject areas as they relate to their organizational function and/or region. The collections may not be complete or extensive in all major subject areas. Listed below are the major subject areas covered by the libraries:

DESCRIPTION OF DATABASES USED BY EPA LIBRARIES

(See individual library descriptions for a list of specific databases used.)

BRS (Bibliographic Retrieval System) a commercial vendor of databases, provides access to more than 60 databases in science, technology, business economics, humanities, social sciences and other areas.

CARL (Colorado Alliance of Research Libraries) is an online bibliographic database which contains the holdings of six major Colorado research libraries.

CAS ONLINE, a product of Chemical Abstract Service, contains records for the documents covered since 1967 in the printed version of Chemical Abstracts. Journals, patents, technical reports, books, conference proceedings, and dissertations from all areas of chemistry and chemical engineering are abstracted and the file is updated biweekly.

CDS (Compliance Data System) is an EPA management information system that stores, sorts, and reports compliance data for approximately 30,000 stationary sources of air pollution that are subject to air quality regulations.

CERCLIS (Comprehensive Environmental Response, Compensation and Liability Information System), an EPA database, contains an inventory of potential hazardous waste sites and serves as a vehicle for the EPA Regions to report to Headquarters on the status of major stages of cleanup at sites.

CIS (Chemical Information System) is a commercially available collection of scientific and regulatory databases. It contains numeric, textual, and some bibliographic information in the areas of toxicology, environment, regulations, spectroscopy, chemical and physical properties, and nucleotide sequencies.

CONSENT DECREE SYSTEM, an EPA/National Enforcement Investigations Center-operated and maintained system consisting of a hardcopy library of consent decrees to which EPA is a party, a computerized inventory of that library, and computerized summaries of the contents of decrees by facility.

DIALOG INFORMATION RETRIEVAL SERVICE, a commercial vendor of databases, has more than 200 databases available through its system. The type of information varies with the database accessed; database records may be bibliographic citations, abstracts, directory listing or statistical tables. Some of the DIALOG databases commonly used by EPA libraries are Pollution Abstracts, Enviroline, Chemical Regulations and Guidelines, Social SciSearch, and The National Technical Information Service (NTIS).

DUN AND BRADSTREET, a credit-reporting firm, provides business information reports for privately- and publicly-owned companies and government activity reports which list Federal contracts, grants, fines and debarments for specific companies.

FINDS (Facilities Index System), an EPA database, provides descriptive information on facilities/establishments which are of interest to EPA programs, with a cross reference to EPA programmatic information systems which have information on these facilities/establishments.

HAZARDLINE, a product of the Occupational Health Service, Inc., contains data on hazardous chemicals, including chemical name, formula, synonyms, and Chemical Abstracts Service Registry Number.

HAZARDOUS WASTE DATABASE, an EPA system, contains references to key materials on hazardous waste in the EPA library network. Bibliographic descriptions, keywords, abstracts, locations and other information are listed for books, EPA reports, Office of Solid Waste and Emergency Response (OSWER) policy and guidance directives, periodicals and commercial databases containing information on hazardous waste. Hard copies of the documents are available in the Headquarters and Regional libraries, the National Enforcement Investigations Center/Denver, CO, and the laboratory libraries in Cincinnati, OH; Edison, NJ; Research Triangle Park, NC; Ada, OK; and Las Vegas, NV. A list of the documents is available at all other laboratory libraries.

HWDMS (Hazardous Waste Data Management System) is an EPA database which includes information on the status of responses to EPA regulations by the 5,000 facilities that treat, store or dispose of hazardous waste and 60,000 handlers who generate or transport hazardous waste.

INFORMATION SYSTEMS INVENTORY (ISI) is an EPA database listing over 500 EPA information systems and environmental models. The database includes a description of each environmental measurement system/model and can be accessed at several points, including system name, acronym, associated Congressional act or law, number of users and responsible personnel. Headquarters Library staff can search this inventory to obtain information for the purpose of referring requestors to the appropriate office within EPA.

JURIS (Justice Retrieval and Inquiry System), a Department of Justice system, is a computerized legal research database for use by the Federal government. It provides full-text online retrieval from general legal materials and special litigation support files.

LEXIS is a full-text database that includes information on Federal law, with decisions of all Federal courts, the United States Code, and the Federal Register, as well as specialized law libraries in the following areas: taxation; securities; trade regulation; patent, trademark, and copyright; communications; labor; and bankruptcy.

NATIONAL GROUNDWATER INFORMATION CENTER DATABASE, a bibliographic database, contains references on the occurrence and utilization of surface and ground water, and on water well technology. Indexed titles include trade and technical journals and newsletters, books, and government documents. Because EPA established the Center, there is special emphasis in the database on EPA-sponsored reports.

NATIONAL LIBRARY OF MEDICINE (NLM) ON-LINE SERVICES database consists of bibliographic citations on biomedical literature, including health care services and administrative, clinical, and policy topics. Special files on population, cancer, and toxic substances are also available on the NLM database.

NATIONAL PESTICIDE INFORMATION RETRIEVAL SYSTEM, developed by Purdue University, contains information that describes the key characteristics of pesticides, including approximately 50,000 products registered by EPA, as well as State registrations.

NEWSNET, is a full-text database of newsletters, press releases, and wire services. Subject areas in NewsNet include the environment, chemicals, government and regulation, public relations, farming and food, research and development, and electronics and computers.

NEXIS is a full-text database that contains general and business news. NEXIS sources include magazines, newspapers, wire services, newsletters, and government documents.

OCLC (Online Cataloging Library Center) supports resource sharing among more than 2,700 member libraries. Participants use the OCLC Cataloging module to catalog books, serials, and various other library materials and the Interlibrary Loan module to facilitate interlibrary lending.

ORBIT is an online service which provides access to more than 70 databases in science, technology, business, economics, humanities, social sciences and other areas.

PCS (Permit Compliance System) is an EPA management information system for tracking permit, compliance, and enforcement status for the National Pollutant Discharge Elimination System program under the Clean Water Act.

SFFAS (Superfund Financial Assessment System), is an EPA computer application designed to calculate the remedial costs a responsible party can theoretically afford to pay for cleanup of a site.

STORET (Storage and Retrieval of Water Quality Information), an EPA database, provides a capability to store, retrieve and analyze water quality information.

TOXLINE, a product of the National Library of Medicine, contains citations and abstracts to the worldwide literature in all areas of toxicology, including chemicals and pharmaceuticals, pesticides, environmental pollutants, and mutagens and teratology.

TOXNET is a computerized system of toxicologically oriented data banks operated by the National Library of Medicine.

VU-TEXT contains the full text of 19 daily newspapers, including nationally recognized papers such as the Boston Globe and Chicago Tribune and regional papers such as the Orlando Sentinel.

WATSTORE (National Water Data Storage and Retrieval System), a product of the U.S. Geological Survey, contains data collected as a result of measuring and quantifying the occurrence and quality of U.S water resources and the effect of development and utilization on those resources.
